BIOGRAPHY

Metalium is a German power metal band formed in 1998 in Hamburg, Germany. Led by bassist *Lars Ratz* (RIP), the band released their debut album *Millennium Metal – Chapter One*, an iconic masterpiece filled with catchy melodies, powerful vocals, and heavy guitar riffs. But it was with the release of their second album, *State of Triumph – Chapter Two*, that the band gained momentum, embarking on extensive headline tours across Europe and Japan. Songs like “*Fight*”, “*Free Forever*”, “*Dream of Doom*”, and “*Steel Avenger*” became timeless classics for the band.

Over their career, **Metalium** released a total of eight studio albums and two DVDs. The band disbanded in 2011, but the tragic death of **Lars Ratz** in 2021 brought the original members together to honor his memory. They wrote a song dedicated to **Lars**, the single “*Never Surrender*”, which marked a return to their aggressive riffing and glorious, powerful melodies. This opened the door to a new chapter for **Metalium**.

In 2024, **Metalium** returned to the stage with a refreshed lineup: **Henning Basse** (vocals), **Matthias Lange** (guitar), **Bruno Nunes** (guitar), **Fabio Carito** (bass), and **Marcus Dotta** (drums). Combining the spirit of their past with bold, youthful energy, **Metalium** embarks on an exciting new chapter!

A new chapter in this story is being written.
